Course Information Form

Overview/ Synopsis: The five-hour training course is interactive and intended to teach much of the newer code material found in.

- 1) **2020 Elevator Industry Field Employee Safety Handbook.** = 1
hour
Bring your 2020 safety Handbook to class or if appropriate your company's safety policies. We will be addressing two of the nine safety absolutes; time will not allow us to review them all this year.
Please be prepared to review and discuss Fall Protection and Electrical Safe Work Practices.
- 2) **ASME A17.2-2020 delivered in Two- two-hour segments**
Please bring your A17.2 inspection Guide to class
Our objective is to show the many changes incorporated into this 2020 edition of A17.2. The class is based upon the Summary of Changes located in A17.2
Noted throughout, major changes/editorials made to X.X.4 (references) This is because previous A17,1 code changed by elimination or additional requirements from past to current years. Many updates are for this reason and to make X.X.4 more accurate a tool to look up the proper reference code.
 - a. **Part 1 Review of Parts one through five** = 2
hours
 - b. **Part 2 Review of Parts seven through sixteen** = 2
hours
