## Course Information Form

- 1) **2020 Elevator Industry Field Employee Safety Handbook. = 1 hour (0.1 CEU)**

Bring your 2020 safety Handbook to class or if appropriate your company's safety policies. We will be addressing two of the nine safety absolutes; time will not allow us to review them all this year.

Please be prepared to review and discuss Fall Protection and Electrical Safe Work Practices.

- 2) **ASME A17.1-2019 Phase 2 = 5 hours (0.5 CEUs)**

Please bring your A17.1 code book to class

The A17.1-2019 class is a code update. If you were to count the number of changes, the number would exceed 340. The 2021 class focused on the many changes within Parts one, two, three and 5.3 Private residence Elevator.

The 2022 classes, we will address ASME A17.1-2019 by reviewing the changes not discussed within the 2021 course. This will include Parts 6.1, 8.6, 8.7, 8.10 and 8.11

- 3) **ASME A17.2-2020 delivered in Two- two-hour segments**

Please bring your A17.2 inspection Guide to class

Our objective is to show the many changes incorporated into this 2020 edition of A17.2. The class is based upon the Summary of Changes located in A17.2

Noted throughout, major changes/editorials made to X.X.4 (references) This is because previous A17,1 code changed by elimination or additional requirements from past to current years. Many updates are for this reason and to make X.X.4 more accurate a tool to look up the proper reference code.

- a. **Part 1 Review of Parts one through five = 2 hours (0.2 CEUs)**
- b. **Part 2 Review of seven through sixteen = 2 hours (0.2 CEUs)**

### **Standards Used in this presentation:**

2020 Elevator Industry Field Employee Safety Handbook\*\*

ASME A17.1-2019\*

ASME A17.2\*

\*Bring to class, not necessarily the latest edition, \*\* Please bring the latest edition
